

Declaration of Non-Use of POPs

From: Dunbar Products LLC

Dunbar Products LLC, hereby declares that all parts the company delivers to customers do not contain POPs.

Persistent Organic Pollutants (POPs):

Persistent organic pollutants (POPs) are chemicals that persist in the environment, bioaccumulate through the food web, and pose a risk of causing adverse effects to human health and the environment. This group of priority pollutants consists of pesticides (such as DDT), industrial chemicals (such as polychlorinated biphenyls, PCBs) and unintentional by-products of industrial processes (such as dioxins and furans).

This declaration covers all parts provided to customer.

The undersigned is an authorized representative of the Company.
